How to use this pack

Black Friday traffic arrives in a few days and leaves fast. The stores that win have their app stack set up a week before, not on the day. This pack collects the Black Friday 2026 offers from Shopify apps that do different jobs, so you can fill the gaps in your stack without paying full price.

Three rules for BFCM apps

1. **One job per app.** Pick the gap first (order value, trust, search, support), then the app.
2. **Install early.** Test on mobile and on your best-selling product before the traffic arrives.
3. **Read the terms.** Most deals are for new installs and run for a set number of months.

Your BFCM app stack, by job

- **Bigger orders:** volume discounts, bundles and add-ons on the product page (Bun Bundles).
- **Get found:** fast search and filters, landing pages for your sale.
- **Build trust:** reviews, delivery dates, social proof.
- **Talk to buyers:** email and SMS, AI chat for order questions.
- **Keep them:** loyalty, subscriptions, back-in-stock alerts.
- **Protect the weekend:** fraud filtering, cookie consent, returns and tracking.

FEATURED DEAL

Make every Black Friday order bigger

Most Black Friday shoppers arrive for one product. Bun Bundles puts volume discounts, mix and match, bundles and add-ons right next to the Add to cart button, so they have a reason to take more. Built for Shopify, live in minutes, with founder-led support.

Bun Bundles

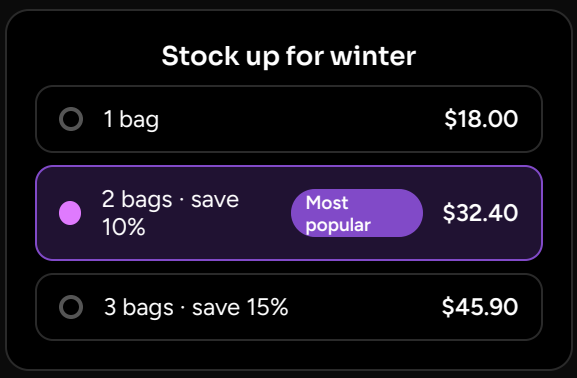

First $1,000 of bundle revenue free

Pay as you go, no monthly fee. Then $1 for every $100 your bundles add. New stores that install by December 1.

Bun Bundles

50% off your first year of Unlimited

Half off your first year of Unlimited ($199 a month, no revenue cap) on yearly billing, with free migration from your current bundle app. Claim by December 15.

- No monthly fee on Pay as you go: you pay only when bundles sell.
- A/B test two offers and keep the one that earns more per product.
- Switching apps? We rebuild your offers for free on the Unlimited deal.

BEFORE YOU GO LIVE

Black Friday launch checklist

One week before (by Nov 20)

- Install new apps and approve plans while deals are live.
- Set your bundle and quantity-break offers on your top 3 products.
- Check margin per tier, not per unit.
- Decide how bundle discounts combine with sitewide codes.
- Test checkout on mobile with a real order.

Black Friday week

- Send your early-access email to subscribers.
- Show delivery cut-off dates for gifts.
- Watch fraud filters and stock levels daily.
- Answer chat fast, or let an AI agent handle order questions.
- Don't change themes or apps mid-weekend.

After Cyber Monday

- Ask buyers how they found you (post-purchase survey).
- Turn first-time buyers into subscribers or loyalty members.
- Keep the best-performing bundle running into December.
- Cancel any trial you don't need before it renews.

Free guides from Bun
